HANDY

UNITED STATES

CREAM SEPARATOR

HAVING the handy things—and the things handy—will put a cheerful grin into what would otherwise be a gloomy grind. **DID** you ever stop to think that taking a few less steps each day means saving many weary miles in life's long way. **THERE** are about "forty-seven" cream separators, according to "vital" statistics; but in my opinion, there's only one cream separator that is built with the express purpose of saving space, time, energy, steps and temper.

THE U. S. IS A CONVENIENT MACHINE

United States Cream Separators can be driven from either side. That's **HANDY** because it allows the machine to be set in any corner of the room.

United States Cream Separators take up little floor space, and the bases are all open. That makes them **HANDY** to clean under.

United States Cream Separators do not have to be started with hot water. You don't have to be told how **HANDY** that feature is.

United States Cream Separators have just a few parts in the skimming bowl, and these are cleaned, sterilized and dried in a Mechanical Washer. That certainly is **HANDY** when you consider the two-score-and-more parts which must be hand washed in the dice type of separators.

United States Cream Separators have self-draining bowls—and these are **HANDY**, for they save slopping and dripping, and strains on tired arms.

United States Cream Separators, with square supply cans, make it possible to place all parts to be washed in the square can, the whole being easy to carry under one arm, leaving the other free to carry the cream. That is so very **HANDY** that it saves two entire round trips between dairy and wash sink every day.

United States Cream Separators being always in gear, start instantly from any point, with no jerk or jump, and without any preliminary hand oiling. The oil feeds perfectly—even in the coldest weather, and that's **HANDY** too!

You Will Notice Many Other HANDY Points When Using the U. S. Separator.

IT WOULD BE HANDY FOR ME to leave a United States Cream Separator at your place next week. Let me know how much milk you want to skim each day and I'll figure out the size you need. Business is rushing! Don't put off ordering any longer.

An Ideal Spring Laxative

A good and time tried remedy is Dr. King's New Life Pills. The first dose will move the sluggish bowels, stimulate the liver and clear the system of waste and blood impurities. You owe it to yourself to clear the system of body poisons, accumulated during the winter. Dr. King's New Life Pills will do it. 25c at your Druggist.—Adv.
